By 2022, just

17%

of global payments
will be made
with cash.

Where It Can Be Used

On Delivery

The Ahlipay user or any other local bank e-Wallet user scan the QR Code of the driver which is registered as a sub-merchant app of the main merchant, allowing the sub-merchant e-Wallet to accept payments on behalf of the store owner.

E-Commerce

While shopping from Internet and on the checkout page, Ahlipay user or any other local bank e-Wallet user will scan the QR Code of the E-commerce stores or by entering the Mobile number linked to the user e-wallet.

In-Stores

In the store at the cashier counter, Ahlipay user or any other local bank e-Wallet user scans the QR Code and makes instant payment.

How It Works

At Merchant

Displays QR Code standee during operation hours

Scan Code

User scans merchant's QR Code

Enter Amount

User enters transaction amount

Enter Password
